What is Catch the Ace?

A “Catch the Ace” progressive (accumulating jackpot) raffle lottery is a multiple draw game in which participants purchase tickets for a chance to win:

- A. a percentage of the proceeds from the sale of tickets from one draw and;
 - B. the draw winner also gets a chance to win a progressive (cumulative) jackpot by selecting a new card from a standard deck of 52 playing cards.
- The person who holds the winning ticket selected in each draw has an opportunity to select one playing card from the single deck of 52 playing cards. If the Ace of Spades is selected, in addition to winning a percentage of the proceeds from the draw, the person will win the progressive jackpot.
 - If the card selected is not the Ace of Spades, the selected card is removed from the deck and the progressive prize portion of the ticket sales for that draw is rolled over into the progressive jackpot for the next scheduled draw.
 - The licensee conducts the scheduled events until the Ace of Spades has been selected and the progressive jackpot has been awarded.
 - Tickets are valid only for the draw they are purchased for. Once the draw is complete, the non-winning tickets are removed from the draw container and a new series of tickets will be sold for the next draw.

EVENT DETAILS

In addition to the obligation to manage and conduct a raffle lottery event, licensees must adhere to the following event details:

- **The prize structure must be as follows:**
 - 20% of event ticket sales – awarded to the bearer of the winning ticket at each draw
 - 30% of event ticket sales – allocated to the progressive jackpot
 - 50% of event ticket sales - retained by licensee and from which all allowable expenses will be paid
- Roll tickets or stub tickets may be used.
- A standard deck of 52 playing cards (the 2 through to the Ace of diamonds, hearts, clubs and spades

totaling 52 cards) are each placed in identical, opaque envelopes and sealed. Those sealed envelopes will be shuffled, randomly numbered from 1 to 52 and be on public display, in a secure fashion at each draw. As an alternative to using a deck of playing cards, the licensee may also use approved gaming supplies from a registered supplier.

- It is not mandatory for the purchaser of the ticket selected at a draw to be in attendance. However:
 - If the licensee is using roll tickets, the licensee is required to include in the Rules of Play the amount of time within which the winner must claim the prize before another ticket is drawn.
 - If stub tickets are used, the licensee shall require purchasers to provide their name and contact information and to indicate in a designated area on the stub, the envelope number selected by the purchaser in the event that his or her ticket is drawn. The licensee must also set out a procedure to be followed in the event that envelope number has already been chosen and is no longer available.
- Once sales for a draw have closed, a ticket must be selected as the winning ticket for that draw. The number on the ticket will be announced at the draw and the prize shall be awarded accordingly.
- The licensee must use a container that is large enough to hold all sold tickets or stubs.
- All prizes must be paid by cheque in Canadian funds.
- The Rules of Play must be posted at the location of the draw and be readily available to the public.
- The Ontario Problem Gambling Helpline name and phone number (1-888-230-3505) must appear on the Rules of Play, in all print advertising and on all stub tickets.
- Once the Ace of Spades card is selected, the event and licence are concluded. If the licensee wishes to conduct another Catch the Ace event, a new licence must be obtained.

CONTROL PROCEDURES

Licensees must ensure the following:

Tickets:

1. Tickets (serialization) must be unique from draw to draw.

2. There must be no duplicate ticket numbers for all draws under a licence. There must be a documented process in place showing how the licensee will ensure there are no duplicate tickets for all draws.
 3. Tickets are only eligible for the draw for which they are purchased. At the conclusion of the draw, all non-winning tickets must be removed from the container. Non-winning tickets may be destroyed after 30 calendar days.
 4. Winning tickets must be kept in accordance with the requirements outlined in the Raffle Terms and Conditions.
 5. The licensee will keep a record or log for all draws recording the sequence numbers and other characteristics for all tickets in play.
- c. Reveal of playing card within selected envelope; and
 - d. Destruction of the playing card.
